MEDICAL

DR. SAMUEL GILBERT'S PREPARATIONS

DR. SAMUEL GILBERT so celebrated

CHRONIC DISEASES. the most lucrative Medical Practice in the South, has at last consented to allow several of his most esteemed remedies to be prepared and sold as proprietary medicines. This resolution has been engendered by the repeated solicitations of those who have experienced the benefit of his remarkable professional skill, and by the impossibility of giving especial attention to each of the written applications made to him for preceriptions by those whose pecuniary circumstances or business habits, proclude the possibility of applying in person to him.

THE PUBLIC May rest assured that the manufacturers spar neither pains nor expense in the preparation of these remedies. They are made of the very best nedicines known, in a highly concentrated form, upon strictly scientific principles.

DR. SAMUEL GILBERT'S GENERAL ALTERATIVE

Acts directly upon the Glands and Mucous Membranes—stimulating them to additional activity in their natural functions of eliminating from the Circulating Fluids the usual Effete (and in disease, Morbid) Matters, and expelling them through the Skin, Kidneya, Liver, and Alimentary Canal from the system. It is, therefore, adapted for the relief of chronic diseases affecting those organs, and of the mucus membranes lining them such as

ERUPTIONS, TETTER, ULCERS, SCROPULA JAUNDICE GOITRE, CHRONIC INFLAMATION OF BLADDER AND UTERUS, ETC.

It is particularly useful in Suppressed Menstrua-tion, Hereditary Taints, Syphilis, and maladies aris-ing from long-continued use of Calomel, Bine Mass Corrosive Sublimate, Fowler's solution, Donovan's ution, and other preparations of mercury

PLLTINAS We have a combination of Pitt's 4-horse power Emery Cotton Gin and Condenser, and Grove Press, which will effect the ginning of a crop without a gin-house. Cotton can be ginned in the field as readily as grain can be trashed, and the complement of machinery we have arrranged, will effect this.

This we have gotton up because of the wide-spread destruction of Gin Houses, and the na-

ssity of a portable set of Ginning and Press

Steam Power, 4 to 8-horse, can be substi-tuted for the horse power mentioned above. at AGRICULTURAL MACHINERY
